Glacial Period (Louvre Collection) Nicolas De Crécy

In this fanciful and richly imaginative story, one of the most original and important young European comic artists imagines a frozen world thousands of years hence in which all human history has been forgotten. A small group of archaeologists come upon the Louvre, buried in age-old snow, and cannot begin to explain all of the artifacts they see. Their interpretations of the wonders before them strike a humorous, absurd, and farcical tone. One of the few books coedited by the Louvre, this graphic novel features stunning illustrations as it presents a unique vision of the great museum.
