A well-researched guide to the most profitable spreads in the futures market

The Encyclopedia of Commodity and Financial Spreads is divided by product category-energy, natural gas, meats, soybeans, corn/wheat, currencies, interest rates, and metals. The precise performance of each spread is identified-over the previous 20 years-and combined with a graph that displays visually the price performance of the spread. For each of the 175 trades identified, there is an explanation of the trade, its history, and advice on how traders should approach the trade.

Steve W. Moore (Eugene, OR) has been trading and researching the futures markets for more than 25 years. He formed Moore Research in 1990 to provide traders with historical research and seasonal analysis to better trade the commodity markets. Jerry Toepke (Eugene, Oregon) is Editor of Moore Research Center, Inc. Nick Colley (Eugene, Oregon) is Research Director of Moore Research Center, Inc.
