Cardiopulmonary Pharmacology For Respiratory Care Jahangir Moini

Cardiopulmonary Pharmacology for Respiratory Care is included in the 2015 edition of the essential collection of Doody's Core Titles. Cardiopulmonary Pharmacology for Respiratory Care provides a reliable, complete resource and reference on cardiopulmonary pharmacology, including an overview of the structures and functions of the cardiopulmonary system as well as recent scientific advancements. Written in an easy-to-read, student-friendly style, this text covers areas crucial to respiratory care and relates these important concepts to the day-to-day duties of cardiac technicians and respiratory care therapists. Helpful appendices focus on the most commonly-prescribed drugs for respiratory care, common sound-alike drug names, a drug identification guide, and respiratory therapy techniques. Review questions are included in each chapter for reinforcement and self-evaluation. Filled with over 100 full-color figures, tables, and photos, this text is a vital and comprehensive resource on cardiopulmonary pharmacology for respiratory therapy students. Each new text includes an online code to access the Student Resources available on the Companion Web Site. Electronic versions and eBooks do not include access to the companion website content.
