In this broad outline of "Aerial Photography at War", Fairchild pays tribute to the military leaders whose courage and foresight have so abundantly borne fruit - and to the countless men in our military and naval forces who today are employing this newest of weapons to guide our gallant forces to Victory. The aerial photographs taken in this war (and shown in this book) are a monument praise to the pilots, the photographers and the laboratory technicians whose superior skills enabled them to achieve, not only difficult but often, the "impossible". A wonderful promotional piece by Fairchild Camera to highlight the achievements of wartime photographers using photography for the first major time.
