Women Singers The Legendary Hit-Makers: Everyone from Ella and Aretha to Lady Gaga and in between who gave us a Lifetime of Memories Paul Romaine

The Celebrity, women singers in this book have numerous credentials that make for legendary status. Beyond that however, you will also read about the obstacles and even some of the tragedies they had to deal with in getting to where they are today. And of course, certainly their awards and accomplishments are a part of that.

We will be talking with you about those things and how some of these ladies had to have a strong constitution and inner strength to persevere in the face of adversity.

Just as important as the hits is the ability of the singer to stay on course and make changes if necessary to continue heading upward. Many a celebrity will tell you that it's harder to stay on top of your game when you're famous and you have to work harder when you are there than when you were working your way up.

Given the above, I'll be telling you some little unknown facts about them and their careers. For instance, one of these singers who is relatively young (She is 44 years-of-age) is tied in second place with an older, well known artist as to having received the most Grammy Awards in their lifetime to date.

What makes that impressive is that the younger artist has done this currently. If she keeps up her pace and lives as long as the person that she is tied with, how many awards will she have won by then?

Sometimes fans do not realize that there is more to a celebrity's life than just the music. Many of them have family to take care of which can involve parents, spouses, children and extensions of that. If the singer is the main bread winner, then they have to adapt to that situation as well.

Good biographical books are really a history of the person that they are about and there is much to be covered. I feel this book has a much broader amount of appeal because in it, there are 30 biographies of celebrity singers with a treasure trove of information about them. Lastly there is a small section after the chapters at the back of the book called "Women of Substance". These women are not singers. I have inserted them there because they have done so much for women's rights. They are truly role models who women can be proud of and look up to. There are three of these women of character and substance. One is Susan B. Anthony. The second is Rosa Parks and the third is Audrey Hepburn.
