Supercars: Masterpieces of Design and Engineering Richard Dredge

What self-respecting gear-head doesn't go weak at the knees upon hearing the names Ferrari, Aston Martin, Porsche, and Lamborghini? While they may never get behind the wheel of the real thing, this exciting new book dedicated to supercars — and the power, romance, freedom, and speed that they inspire — comes close.

This book pays homage to the masterpieces of design and engineering that dominate the fantasies of car lovers around the world. It profiles 75 of the most famous and coveted vehicles from Europe, Japan and America, providing a unique and exciting glimpse at these glorious machines. Detailed coverage of all the most famous marques, past and present, including Lotus, Jaguar, Corvette, Mercedes and others are included.

Each supercar is presented in a stunning double-page spread with detailed annotations and fascinating text detailing its design, development, innovations, and handling. Gearheads will salivate over the comprehensive specifications panels providing key technical data in this gorgeously designed book that features more than 220 stunning color photographs. *Supercars* captures these marvels of the motorway in all their glory.

From reader reviews:

Mavis Strain:

People live in this new time of lifestyle always try to and must have the time or they will get lot of stress from both way of life and work. So , once we ask do people have extra time, we will say absolutely without a doubt. People is human not just a robot. Then we request again, what kind of activity do you possess when the spare time coming to anyone of course your answer can unlimited right. Then do you try this one, reading ebooks. It can be your alternative in spending your spare time, the actual book you have read is usually Supercars: Masterpieces of Design and Engineering.

Melvin Hayes:

Playing with family in the park, coming to see the sea world or hanging out with close friends is thing that usually you might have done when you have spare time, then why you don't try thing that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Supercars: Masterpieces of Design and Engineering, you are able to enjoy both. It is very good combination right, you still desire to miss it? What kind of hang type is it? Oh come on its mind hangout men. What? Still don't buy it, oh come on its referred to as reading friends.

Thanh Johnson:

This Supercars: Masterpieces of Design and Engineering is great guide for you because the content and that is full of information for you who else always deal with world and still have to make decision every minute. That book reveal it info accurately using great organize word or we can declare no rambling sentences within it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but tricky core information with beautiful delivering sentences. Having Supercars: Masterpieces of Design and Engineering in your hand like finding the world in your arm, info in it is not ridiculous a single. We can say that no reserve that offer you world with ten or fifteen minute right but this guide already do that. So , this is good reading book. Hey there Mr. and Mrs. occupied do you still doubt in which?

Shawn Young:

Do you like reading a publication? Confuse to looking for your best book? Or your book was rare? Why so many question for the book? But just about any people feel that they enjoy intended for reading. Some people likes examining, not only science book but novel and Supercars: Masterpieces of Design and Engineering or others sources were given know-how for you. After you know how the truly great a book, you feel would like to read more and more. Science guide was created for teacher or students especially. Those textbooks are helping them to bring their knowledge. In some other case, beside science book, any other book likes Supercars: Masterpieces of Design and Engineering to make your spare time a lot more colorful. Many types of book like here.
