Head First HTML with CSS & XHTML Elisabeth Freeman, Eric Freeman

Tired of reading HTML books that only make sense after you're an expert? Then it's about time you picked up "Head First HTML with CSS & XHTML and really learned HTML. You want to learn HTML so you can finally create those Web pages you've always wanted, so you can communicate more effectively with friends, family, fans and fanatic customers. You also want to do it right so you can actually maintain and expand your Web pages over time, and so your Web pages work in all the browsers and mobile devices out there. Oh, and if you've never heard of CSS, that's okay - we won't tell anyone you're still partying like it's 1999 - but if you're going to create Web pages in the 21st century then you'll want to know and understand CSS.

Learn the real secrets of creating Web pages, and why everything your boss told you about HTML tables is probably wrong (and what to do instead). Most importantly, hold your own with your co-worker (and impress cocktail party guests) when he casually mentions how his HTML is now strict, and his CSS is in an external style sheet.

With "Head First HTML with CSS & XHTML, you'll avoid the embarrassment of thinking Web-safe colors still matter, and the foolishness of slipping a font tag into your pages. Best of all, you'll learn HTML and CSS in a way that won't put you to sleep. If you've read a Head First book, you know what to expect: a visually-rich format designed for the way your brain works. Using the latest research in neurobiology, cognitive science, and learning theory, this book will load HTML, CSS, and XHTML into your brain in a way that sticks.

So what are you waiting for? Leave those other dusty books behind and come join us in Webville. Your tour is about to begin.

"Elegant design is at the core of every chapter here, each concept conveyed with equal doses of pragmatism and wit."

--Ken Goldstein, Executive Vice President, Disney Online

"This book is a thoroughly modern introduction to forward-looking practices in web page markup and presentation."

--Danny Goodman, author of "Dynamic HTML: The Definitive Guide

"What used to be a long trial and error learning process has now been reduced neatly into an engaging paperback."

--Mike Davidson, CEO, Newsvine, Inc.

"I love "Head First HTML with CSS & XHTML--it teaches you everything you need to learn in a 'fun coated' format!"

--Sally Applin, UI Designer and Artist

"I haven't had as much fun reading a book (other than Harry Potter) in years. And your book finally helped me break out of my hapless so-last-century way of creating web pages."

--Professor David M. Arnow, Department of Computer and Information Science, Brooklyn College

"If you've ever had a family member who wanted you to design a website for them, buy them Head First HTML with CSS and XHTML. If you've ever asked a family member to design you a web site, buy this book. If you've ever bought an HTML book and ended up using it to level your desk, or for kindling on a cold winter day, buy this book. This is the book you've been waiting for. This is the learning system you've been waiting for."

--Warren Kelly, Blogcritics.org

Now, why not striving Head First HTML with CSS & XHTML that give your enjoyment preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the opportunity for people to know world a great deal better then how they react toward the world. It can't be explained constantly that reading practice only for the geeky man or woman but for all of you who wants to end up being success person. So , for every you who want to start reading as your good habit, you could pick Head First HTML with CSS & XHTML become your current starter.

Ruth Paiz:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for

yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Head First HTML with CSS & XHTML can make you feel more interested to read.
