New Research Techniques: Getting the Most Out of Search Engine Tools (Digital & Information Literacy (Library)) Ryan Randolph

The online world has opened up dozens of avenues for finding reliable answers to research questions. While the Web provides super-fast access to reliable academic and commercial sources, some of the best resources for research dont appear in Web search results. A great deal of information is contained in subscription and library databases. Students learn about some of the new research techniques and tools that are available for online searching in this compelling and straightforward presentation. Among the topics covered are browser tools and search engine toolbars, browser add-ons, Web mashups, e-mail and text alerts, RSS feeds and readers, Boolean operators, and refining research results
