## Skepticism (Life. Destiny. Fate. Series) (Volume 4) LK Collins

From the #1 bestselling Life. Destiny. Fate. series comes book #4. All though the characters from all of these stories intertwine, each book can be read as a stand alone. It's been ten years, and I live every day with the weight of regret on my shoulders. We've all done bad things, things that we are ashamed of. But those things make us the people that we are today. And today, I'm Liam Brown. When those closest to me were killed, I had to kill my former self just to stay alive. My real name is Micah Lomano, and I left my life fabricating a web of lies along the way to keep what I had done a secret. But I never forgot about Natalene, and now nothing matters...because I don't have her. After one fatal night rocked us to the core, everything changed. I had everything I'd ever wanted: the perfect guy, a loving family, and more money than I knew what to do with. But in an instant, my world stopped. Somehow I'd survived, but I lost everything I knew, everything I wanted. Including myself. I knew then that nothing would ever be the same. I waited for Micah to find me, just like he promised he would. But he never did, and it was when I needed him most. So I was forced with a choice, one that I didn't want to make: Raise his child on the run or give her up? The decision wrecked me and what hurt most off all...Micah had no idea that I was pregnant. \*\*\*Adult themes and situations. This book is NOT intended for those under 18.\*\*\*
