Multiculturalism Observed: Exploring Identity (Institute for European Studies series) Richard Lewis

A timely and unique perspective on a phenomenon that is highly divisive and splits academic and public opinion alike. In the wake of the terrorist attacks in New York, Madrid, and London, the question how Western society integrates its minorities has become one of the most crucial issues facing government today and excites media attention and frequent public controversy. This volume presents a number of points of view both from Europe and North America by academic, religious, and political authors from a variety of cultures, all with a very different perspective on whether multiculturalism is a valid answer to ensuring harmony in our societies.
