## **Military Technology (New Technology)** Ian Graham

The New Technology series is an exciting, up-to-date look at new technology and the effect it is having on the world. Each title looks forward to likely future technological advances that will affect our everyday lives. Today there are already unmanned spy planes, military robots, and stealth bombers. But what new weapons and systems will be around in the future? Will soldiers really wear uniforms that control their body temperature or sound an alarm if they are injured? Will robots be the soldiers of the future? Will robot spies as small as insects scout enemy territory? With developments in military technology, future warfare and defense will be very different.
