Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:)

Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:)

The last thirty years were a period of continuous and intense growth in the subject of dynamical systems. New concepts and techniques and at the same time new areas of applications of the theory were found. The 31st session of the Seminaire de Mathematiques Superieures (SMS) held at the Universite de Montreal in July 1992 was on dynamical systems having as its center theme "Bifurcations and periodic orbits of vector fields". This session of the SMS was a NATO Advanced Study Institute (ASI). This ASI had the purpose of acquainting the participants with some of the most recent developments and of stimulating new research around the chosen center theme. These developments include the major tools of the new resummation techniques with applications, in particular to the proof of the non-accumulation of limit-cycles for real-analytic plane vector fields. One of the aims of the ASI was to bring together methods from real and complex dynamical systems. There is a growing awareness that an interplay between real and complex methods is both useful and necessary for the solution of some of the problems. Complex techniques become powerful tools which yield valuable information when applied to the study of the dynamics of real vector fields. The recent developments show that no rigid frontiers between disciplines exist and that interesting new developments occur when ideas and techniques from diverse disciplines are married. One of the aims of the ASI was to show these multiple interactions at work.

From reader reviews:

William Smith:

Book is definitely written, printed, or descriptive for everything. You can learn everything you want by a guide. Book has a different type. As it is known to us that book is important thing to bring us around the world. Alongside that you can your reading expertise was fluently. A book Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) will make you to possibly be smarter. You can feel more confidence if you can know about every little thing. But some of you think that open or reading the book make you bored. It's not make you fun. Why they may be thought like that? Have you looking for best book or ideal book with you?

Katherine Lee:

Do you one among people who can't read satisfying if the sentence chained inside straightway, hold on guys this aren't like that. This Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) book is readable by you who hate the perfect word style. You will find the data here are arrange for enjoyable reading through experience without leaving possibly decrease the knowledge that want to offer to you. The writer associated with Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) content conveys prospect easily to understand by many individuals. The printed and e-book are not different in the written content but it just different such as it. So , do you nevertheless thinking Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) is not loveable to be your top collection reading book?

Barbra Poole:

A lot of people always spent their particular free time to vacation or maybe go to the outside with them family or their friend. Do you realize? Many a lot of people spent these people free time just watching TV, or even playing video games all day long. If you need to try to find a new activity this is look different you can read a book. It is really fun for you personally. If you enjoy the book that you just read you can spent all day every day to reading a book. The book Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) it is very good to read. There are a lot of those who recommended this book. They were enjoying reading this book. Should you did not have enough space to create this book you can buy the e-book. You can m0ore simply to read this book from a smart phone. The price is not to fund but this book possesses high quality.

Jonathan Ouzts:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book had been rare? Why so many question for the book? But any people feel that they enjoy to get reading. Some people likes looking at, not only science book and also novel and Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) or maybe others sources were given know-how for you. After you know how the good a book, you feel need to read more and more. Science e-book was created for teacher or even students

especially. Those guides are helping them to bring their knowledge. In additional case, beside science guide, any other book likes Bifurcations and Periodic Orbits of Vector Fields (Nato Science Series C:) to make your spare time more colorful. Many types of book like this one.
