Joe P. Morgan, Clea Sue Bailey

**Exercises in Veterinary Radiology: Spinal Disease** Joe P. Morgan, Clea Sue Bailey

*Exercises in Veterinary Radiology: Spinal Disease* contains clinical descriptions with selected portions of radiographic studies of dogs and cats with spinal disorders. The book also covers major topics in clinical neurology and neuroradiology relevant to the case studies presented. The cases are organized into smaller groups with a common theme, such as breed, an aspect of clinical history or a physical or neurologic abnormality. The cases range from "classic" examples of illustrated diseases to unique presentations. This book can be used as a self-assessment tool for veterinarians in practice or for veterinary students preparing for exams or about to enter practice.
