Allah's Artistry in Colour Harun Yahya

This full-color work beautifully illustrates Allah's choices of color in filling this world with majesty, diversity, and perfect fit. Numerous photos from nature (above land and under sea) complement this title.

The colors, patterns, spots, and even lines on the creatures in nature have a meaning. Colors, sometimes used as a mean of communication, sometimes as warning for predators, have a vital importance for living beings. This is so much so that the lightness or darkness of that creature's shade of color, and even the direction of its lines have been specially determined.

A watchful eye will immediately see that not only living beings but also everything else in nature is just the way it should be, each being in the most appropriate place for it. What's more, he will understand that everything has been given to the service of men. The blue, refreshing color of the sky, the colorful appearances of flowers, the trees in bright green, the pasture, the moon, which lights up the world in pitch darkness, the stars and all the other beauties that we cannot count are manifestations of the artistry of Allah.

Allah has created the universe and everything animate and inanimate there therein flawlessly. Allah has control over all things; he is the most powerful, and almighty.

That is Allah, your Lord. There is no god but Him, the Creator of everything. So worship Him. He is responsible for everything. (Surat al-An'am: 102) the Creator of everything. So worship Him. He is responsible for everything. (Surat al-An'am: 102)
